

REMARKS

Amendments

Claim 1 is amended to recite a process for producing a compound of formula I and a compound of formula VII. Claim 12 is amended to recite a process for producing a compound of formula III and a compound of formula X. See, for example, page 17, line 11 – page 18, line 12, page 23, line 2, - page 24, line 9, and reaction schemes 1 and 2 at page 25.

In a recent telephone conversation, Examiner Ariani suggested amending claim 1 to recite a process for producing a compound of formula VII by subjecting a compound of formula II to an enzymatic diastereomeric resolution to obtain a compound of formula I. However, claim 1 is amended above to recite that both a compound of formula I and a compound of formula VII are produced, as described in applicants' specification. Similar amendments are made to claim 12.

Allowance of the instant application is respectfully requested.
